NASN POWER

Wallbox EV Charging Station

Wall Type

Compared to Level 2 charging, this Wall mounted DC fast chargers can give your customers more fuel in less time. Wall mounted type EV DC fast chargers bring in customers, adding up to 7KWH-30KWH per hour of charging. Payment & billing platform solutions enable easy and secure payments via station payment terminals and RFID card. Can used indoor and outdoor. Configured with both CHAdeMo and CCS plug to meet universal type electric vehicles.

Solar EV Charger Features

Wall mounted Charger-Wall mounted type, suitable to use at parking lot, bank, hospital, restaurant, hotel, gas station and at home.

Multi Standard - With plug and play type ev connector, to meet all possible electric vehicles. CHAdeMo, CCS Combo 1, CCS Combo 2 and GB/T for your option. DC output cable can be customized based on request.

DC Fast Charge Speed-Fast charger provide great convenience for modern people's fast-paced life. People can fill up electric cars in a short time while drinking coffee and shopping.

Rated output power - This portable charger with input voltage of 380V, voice navigation, easy to use, rated output power. 7KW to 30KW for your option.

Specification

product model	NI-07750	NI-15750	NI-20750	NI-30750
output power	7KW	15KW	20KW	30KW
The AC input voltage range	90-265V	265-475V	265-475V	265-475V
input current	32A	30A	40A	50A
Output voltage range	200-750V			
display mode	4.3-inch color touch screen			
frequency domain	45-66HZ			
Product efficiency	≥95%			
Output current	20A	25A/37.5A	33A/60A	50A/100A
auxiliary source	Default 12V (optional 24V)			
size	545*380*170mm			645*454*170mm
Net weight	20KG	30KG	35KG	45KG

product model	NI-07750	NI-15750	NI-20750	NI-30750
output power	7KW	15KW	20KW	30KW
Charger gun length	5M (accept customize)			
Altitude	2000M			
working temperature	-20℃-50℃			
Protect function	Lightning protection, overload, short circuit over temperature, electricity leakage, emergency stop protection, etc			
Charging selection	Plug and play, timing, reservation, payment, etc			
mode of payment	RFID card, (option scan code ,credit card,QR CODE,APP)			
Network Connection	Optional (4G module / wifi / Ethernet)			
levels of protection	IP54			
Optional function	OCPP
